\*Returns from April 2023 onwards have been generated using FactSet models with an Annual Management Charge determined from live client portfolios being applied on a monthly basis. This performance is model based and therefore is an indicative figure. Prior to April 2023, returns for these strategies were generated from live client portfolios on a net of fees basis.

### Overview

Our Strategic Income Strategy blends our Corporate Bond and Direct Equity strategies to provide a balance of income and liquidity. It aims to produce long-term capital growth by investing in a diversified portfolio of fixed interest and equity securities, while also providing a competitive yield.

The segregated portfolios are available for those with £1,750,000 or more to invest.

## Important information

Issued by Brooks Macdonald International

All data provided by Brooks Macdonald, unless otherwise stated, as at 31.03.2024

Corporate bond investments are subject to minimum trading size and liquidity factors. This means that entering and exiting the investments may often require five to ten working days but occasionally longer.

The information presented in this factsheet, including charges and performance, is for the Sterling portfolio. Other currencies may be available. Investment markets and conditions can change rapidly and as such the views expressed should not be taken as statements of fact, nor should reliance be placed on these views when making investment decisions. The price of assets in this portfolio and the income from them can go down as well as up and neither is guaranteed. Past performance is not a guide to future results. Investors may not get back the amount invested. Changes in rates of exchange may have an adverse effect on the value, price or income of an investment. Changes in interest rates may impact the value of fixed interest investments within the portfolio. The value of your investment may be impacted if underlying fixed interest holdings default, or market perception of their credit risk changes.

ARC Private Client Indices ("PCI") are based on historical information and past performance is not indicative of future performance. PCI are computed using a complex calculation and the results are provided for information purposes only and are not necessarily an indicator of suitability for your specific investment or other requirements. ARC does not guarantee the performance of any investment or portfolio or the return of an investor's capital or any specific rate of return. ARC accepts no liability for any investment decision made on the basis of the information contained in this report.
